

A decorative border of red ladybugs with black spots, arranged in a grid-like pattern around the page. There are 18 ladybugs in each of the four corners, and a single row of 18 ladybugs along the top and bottom edges.

News from Room 3

Kia ora from Room 3

Welcome back to term 2. I hope everyone had a relaxing holiday.

Room 3 would like to give a very warm welcome to our newest student Sinu who is settling in very well and making some wonderful contributions to our class discussions.

This term we are focusing on celebrations and festivals. We are hoping to celebrate Matariki with our own class kite festival and demonstrate our knowledge of the Chinese New Year by making lanterns. If you have anything to share with our class we would welcome any information you have about celebrations and festivals around the world.

A reminder that all the children have a book to read every night and it would be great if you could remind your child to bring their book folder to school every day so that we can chart their reading progress on our Reading Road.

I'm looking forward to a fun-packed term 2.
